

**WISE Final Presentation Schedule**  
**Wednesday, August 6, 2008**  
**9:00 AM- 5:00 PM**  
**House Science Committee Hearing Room**  
**Rayburn House Office Building Room 2325**  
<http://www.aoc.gov/cc/cobs/rhob.cfm>

1	Eric Sauck, SAE University of Michigan	9am	Public Policy Role in Implementing Intelligent Vehicle Technologies that Improve Safety, Congestion, and Efficiency
2	Michaelangelo Tabone, AIChE University of Pittsburgh	9:30am	Metrics in Congress: Useful Metrics for Evaluating Biofuel Legislation
3	Pamela Androff, ASHRAE University of Central Florida	10:00am	Evaluating Requirements for Standards in Legislation
4	Jonathan Becker, IEEE Syracuse University	10:30am	Better Prior Art Utilization to Improve Patent Quality
5	Viktoriya Buchko, AIChE Georgia Institute of Technology	11:00am	The Impact of Pharmacogenomics on the Pharmaceutical Industry
LUNCH		12:00pm	(bag lunch for WISE interns & society reps)
6	Marc Santos, ASME University of Massachusetts at Amherst	1:00pm	Regional Emission-free Technology Implementation (RETI): Diversifying the U.S. Electricity Portfolio
7	Nicholas Horelik, AIChE Tufts University	1:30pm	Biofuels in the United States Transportation Sector: Public Policy and Its Effects on the Industry
8	Gregory Tress, IEEE Carnegie Mellon University	2:00pm	Ensuring Reliable Electricity Supplies Using Distributed Generation
9	Brooke Buikema, ANS Calvin College	2:30pm	Help Wanted: The Power Engineering Pipeline and its Role in the American Nuclear Industry
10	Jill Anderson, ANS University of Illinois	3:00pm	Radiation- How to address the Confusion
11	James Bryce, ASTM University of Missouri	3:30pm	Developing Sustainable Transportation Infrastructure: Exploring the Development and Implementation of a Green Highway Rating System
